

Banca Popolare di Sondrio

PRESS RELEASE

THE INTERNATIONAL NON-PROFIT ORGANISATION CDP SIGNIFICANTLY IMPROVES THE CLIMATE SCORE OF BANCA POPOLARE DI SONDRIO

The Bank achieved a rating of A- in the Climate Change Questionnaire positioning itself at an industry leadership level.

Banca Popolare di Sondrio S.p.A. obtained a significant improvement in the climate-environmental assessment issued by the international non-profit organisation CDP (formerly the Carbon Disclosure Project), which independently and rigorously verifies climate strategy, climate-environmental risk management and transparency in the disclosure.

The new CDP - Climate Change Score received is now an A- and places the Bank at a Leadership level, above the Europe regional average of B, and higher than the Financial services sector average of B.

This important result attests to the Bank's strong commitment to the green transition, in line with the goals of the 2022-2025 Business Plan and the recent membership of the Net-Zero Banking Alliance.
