

Banca Popolare di Sondrio

PRESS RELEASE

The banca popolare di sondrio's annual publication “ exchange and interest rates 2023” for the forex and financial markets is now available .

In line with tradition, The Banca Popolare di Sondrio, has issued the publication “Exchange and Interest Rates 2023” which offers a detailed selection of statistics relating to FOREX and Financial markets

In particular, the publication contains monthly information on the performance of all the main currency exchange rates as well as other ‘secondary’ currencies. It also provides important longer- term analyses and graphic representations regarding the evolution of Forex markets as well as a 100 year- summary of the exchange rates in Italy (1923/2023) In addition the publication includes data regarding the lire/euro conversion rates as well as a noteworthy number of less familiar foreign currencies not normally included .

The information on exchange rates is further embellished by historical data on interbank rates and the performance of securities, index variance recorded by the principle international Stock Markets, commodity performance, (futures prices on the major markets) ,precious metal prices and the evolution of economic indicators relating to the major industrialised countries.

Of particular interest is the section dedicated to ISTAT - Cost of Living Index – which facilitates the calculation of the purchase value of the Lire or Euro in the period 1861 to 2022.

The publication ‘Exchange and Interest Rates 2023’ is a valid aid not only to operators in the markets but also those who wish to get in-depth knowledge of Forex and financial markets. It is available on request from the International Service section of the Banca Popolare di Sondrio or may be obtained free of charge from any of the local bank branches.

In conclusion, please note that the data contained in the publication is also available on the website of the Banca Popolare di Sondrio following this link: <http://popso.it/estero>.
