3. Based on the Chairman's proposal, the General Meeting nominates a Secretary to draw up the minutes. In the case of an Extraordinary General Meeting and whenever the Chairman of the Meeting deems it appropriate, the Secretary's role is performed by a notary.

Article 18

Article 19

SECOND SECTION

Board of Directors

Article 20

Composition and appointment

1. The Board of Directors is made up of fifteen members, elected by the Ordinary General Meeting.
2. The composition of the Board of Directors ensures that it is adequate from a collegial point of view. It also ensures that there is a minimum number of independent directors, as well as a suitable gender balance as required by current legislation.

Article 21

Eligibility – Reasons for ineligibility

1. The members of the Board of Directors must be suitable for office in accordance with current law and these articles of association. In particular, they must satisfy the requirements of professionalism and integrity and comply with the criteria of competence, honesty and dedication of time, while also complying with the specific limits on the accumulation of offices established by the law for holding office as a director of a bank issuing shares that are listed on regulated markets.

2. Quite apart from the need for all directors to show independence of judgement, a minimum number of directors have to meet the specific requirements to qualify as independent directors in accordance with art. 147 ter, fourth paragraph, of Legislative Decree no. 58/1998 and the implementing legislation of art. 26 of Legislative Decree no. 385/1993. If an independent director no longer meets the independence requirements, this does not automatically lead to forfeiture if the other independent directors are sufficient to ensure compliance with the minimum number required by current law. However, an independent director who no longer meets the independence requirements has to stop performing those duties for which independent director status is required by the articles of association or by current law.
3. Without prejudice to compliance with the limits and prohibitions laid down by current law, including those foreseen in EU Directive no. 36 of 26 June 2013, Board of Directors can issue a specific regulation to set limits on directors' accumulation of offices in other companies.

Article 22

Duration of office

1. The members of the Board of Directors remain in office for three years, with the rotation procedure set out in the following paragraph, and can be re-elected. The directors' mandate expires on the date of the General Meeting called to approve the financial statements for the last year of their term of office.
2. One third of the Board members get renewed every year. To this end, if the expiry of the directors' mandate cannot be determined by the length of time that they have held office, then names are drawn.
3. Directors can be removed by the Ordinary General Meeting at any time, subject to payment of damages if removal is not for a justified cause.

Article 23

Presentation of lists of candidates

1. The directors are appointed on the basis of lists containing up to the maximum number of directors to be elected, with each candidate listed with a progressive number.
2. The lists containing a number of candidates equal to or greater than three must be composed in such a way as to ensure the minimum number of independent directors and the gender balance required by current law in the composition of the Board of Directors resulting from

the outcome of the vote, taking into account the election mechanism explained in article 24 below in assigning progressive numbers to candidates.

3. Each candidate can only appear on one list, under penalty of ineligibility.
4. The Board of Directors and the shareholders who alone or jointly represent at least 1% of the share capital can submit a list, unless current law or regulatory provisions establish a lower percentage, to be indicated in the notice calling the General Meeting.
5. Each shareholder can participate in the presentation of a list by signing it at the bottom. A shareholder may not submit more than one list, not even through a third party or trust company. The shareholders belonging to the same group - i.e. the parent entity, its subsidiaries and companies subject to common control - and the shareholders who are party to a shareholders' agreement pursuant to article 122 of Legislative Decree no. 58/1998 involving the issuer's shares, cannot present more than one list, not even through a third party or a trust company. In the event of non-compliance, the signing is not counted for any list.
6. The lists must be filed at the registered office, also by means of remote communication, according to the methods explained in the notice of call that make it possible to identify the subjects who are doing the filing, within the twenty-fifth day prior to the date set for the General Meeting, or by any different deadline provided for by current law.
7. The lists must be accompanied by information relating to the identity of the shareholders who presented them, indicating the number of shares and the corresponding percentage held by them and, within the terms established by current law, by a communication showing the ownership of the shareholding, as well as any other information required by the law in question. Shareholders who present a list and who are different from shareholders who hold a controlling or relative majority shareholding must also submit a declaration certifying that they do not have any connections with such shareholders that are considered "relevant" under current law.
8. The ownership of the number of shares needed to present lists is determined with regard to the shares that are registered in the name of the entitled person, or of the group of entitled persons presenting the list, on the day the lists are filed at the registered office. To prove ownership of the number of shares that is suitable for the presentation of lists, the entitled parties must also file, together with the list, the specific communication issued by an intermediary authorised in accordance with the law certifying ownership of the number of shares in question. The communication required in order to prove ownership of the shares can also be produced after filing the list, providing it is at least twenty-one days before the date of the General Meeting and in the manner required by current law.

9. Together with each list, exhaustive information on the personal and professional characteristics of the candidates and the list of offices held in other companies has to be filed at the registered office, along with the declarations by which the candidates accept their candidature and, under their own responsibility, declare themselves suitable for the office, certifying, in particular, that there are no reasons for ineligibility and incompatibility and that they meet the requirements of current law and these article of association to hold office as a director. The candidates declare that they meet the specific independence requirements envisaged by current law for the status of independent director, which is indicated in the lists.
10. Any list that does not comply with these instructions is considered as though it had not been presented. However, any irregularities in the lists that concern individual candidates do not automatically lead to the exclusion of the entire list, but only of the candidates to whom the irregularities refer.

Article 24

Election of directors

1. A shareholder cannot vote for more than one list, not even through a third party or a trust company. The shareholders belonging to the same group - i.e. the parent entity, its subsidiaries and companies subject to common control - and the shareholders who are party to a shareholders' agreement pursuant to article 122 of Legislative Decree no. 58/1998 involving the issuer's shares, cannot vote for more than one list, not even through a third party or a trust company.
2. Except as provided in paragraph 10 of this article, the election of directors takes place as follows:
 - a) take all of the candidates from the list that obtained the highest number of votes, in the order in which they are listed, except for the last one;
 - b) from the list that obtained the second highest number of votes and that has not been presented or voted by shareholders who, according to current law, are connected with the shareholders who presented or voted the list with the highest number of votes, the candidate indicated in first place is taken.
3. If it is not possible to complete the composition of the Board due to insufficient candidates on the list that obtained the highest number of votes, this is done by taking from the list that obtained the second highest number of votes, in the progressive order in which they are listed, any candidates not yet elected who make it possible to comply with current regulations on the minimum number of independent directors and gender balance.

4. Lists that do not obtain a number of votes equal to at least half the percentage of capital required for the presentation of lists will not be taken into account.
5. If only one list has exceeded this limit, also in the case of presentation of a single list, all of the directors will be taken from it, subject to compliance with current regulations on the minimum number of independent directors and gender balance.
6. If two or more lists among those from which the candidates are to be drawn have obtained the same number of votes, they are subjected to a second ballot until the number of votes is no longer the same.
7. If the composition of the Board of Directors resulting from the vote does not ensure the appointment of the minimum number of independent directors required by current law, the non-independent candidate elected from the list that obtained the highest number of votes and who has the highest progressive number is replaced by the next candidate on the same list who meets the independence requirements of current law to be an independent director. If this does not identify suitable substitutes, the director appointed from the list that obtained the second highest number of votes gets replaced. Even if suitable substitutes are not identified, or if the mechanism cannot be applied, the General Meeting resolves there and then by a relative majority of individual candidates who meet the independence requirements of current law to qualify as an independent director on the proposal of those present with the right to vote, making the replacements in the order indicated above.
8. Furthermore, in the event that the composition of the Board of Directors resulting from the vote does not comply with the principle of gender balance, the director who does not meet the gender requirement, elected on the list that obtained the highest number of votes and with a higher progressive number is replaced by the next candidate on the same list belonging to the less represented gender. If this does not identify suitable substitutes, the director appointed from the list that obtained the second highest number of votes gets replaced. If this still does not identify suitable substitutes, or if the mechanism cannot be applied, the General Meeting resolves there and then by a relative majority between individual candidates belonging to the less represented gender, on the proposal of those present with the right to vote, making replacements in the order indicated above.
9. If no valid list is presented, the election proceeds with the candidatures presented at the General Meeting together with the required documentation, without prejudice to the fact that a sufficient number of them have to meet the independence requirements of these articles of association and comply with the current rules on gender balance. It is won by a relative majority.

10. For all partial renewals of the Board, also in accordance with article 22, paragraph 2 above, as long as the director drawn from a list that obtained the second highest number of votes in a previous election is in office (so there is no need to appoint this director for the first time or due to expiry of their mandate or some other reason for termination), all the candidates on the list that obtained the highest number of votes will be elected.

Article 25

Replacement of directors

1. If during the year, for whatever reason, one or more directors are no longer available, the other directors have to take steps to replace them with a resolution approved by the Board of Statutory Auditors, choosing them, where possible, from among the non-elected members on the lists that the outgoing directors belonged to, in compliance with art. 20, paragraph 2, in compliance with current law on the minimum number of independent directors and gender balance. The directors appointed in this way remain in office until the next General Meeting.
2. If there is no longer a majority of the directors appointed by the General Meeting, the remaining directors have to call another General Meeting to replace the members who are no longer available.
3. If the General Meeting has to replace the directors taken from the only list presented or, in the case of more than one list, taken from the list that obtained the highest number of votes, or in any case elected in accordance with article 24, paragraph 3, or by a relative majority, election is by a relative majority vote for each candidate, without any list obligation.
4. If the General Meeting has to replace the director taken from another list in accordance with article 24, paragraph 2b), the election takes place by a relative majority vote of individual candidates, choosing them, where possible, from among the non-elected members of the list that the outgoing director belonged to, or, alternatively, from among the candidates on any other minority lists, or still by relative majority, but without taking into account the vote of the shareholders who presented the majority list at the last election of the Board of Directors or who, according to the communications made according to current regulations, hold, directly or indirectly, a relative majority of the votes that can be exercised at the General Meeting, as well as the votes of any shareholders connected to them, as defined by current law.
5. In any case, the replacement of directors has to take place in accordance with art. 20, paragraph 2, of these articles of association, without prejudice to compliance with the current law on the minimum number of independent directors and gender balance.

6. At least fifteen days before the date set for the ordinary General Meeting, exhaustive information on the personal and professional characteristics of the candidates and the list of offices held in other companies has to be filed at the registered office, as well as the declarations with which the candidates accept their candidature and, under their own responsibility, declare that there are no reasons for ineligibility and incompatibility and that they meet the requirements of current law and these article of association to hold office as a director.
7. The candidates declare that they meet the specific independence requirements envisaged by current law for the status of independent director.
8. The directors elected by the General Meeting take over the position and, for the purposes of rotation as per article 22, paragraph 2, the period of service of those that they are replacing. In the case of simultaneous appointments to positions of different duration, those with a longer duration are given to those elected with the highest number of votes, with seniority in terms of age prevailing in the event of a tie.

Article 26

Chairman and Deputy-Chairman of the Board of Directors - Board Regulations

1. The Board of Directors elects the Chairman and one or two Deputy-Chairmen from among its members. They remain in office until the end of their mandate as directors.
2. The Deputy Chairman replaces the Chairman in all his functions if he is absent or unavailable. If there are two Deputy Chairmen, then this function is performed by the Deputy Chairman to whom the Board has assigned the specific function of deputising for the Chairman. If there is no such specific assignment, replacement by one of the two Deputy Chairmen takes place on the basis of seniority of appointment.
3. If the Deputy Chairman or Chairmen are also absent or unavailable, their functions are performed by the eldest director, or in case of more than one director being of the same age, by the director who has been in office the longest, unless the Board assigns the function to another director who will hold that office until the end of their mandate as a director.
4. The Board appoints a Secretary from among its members or calls a senior staff member or other qualified person to perform this function.
5. The Board of Directors can adopt its own regulations which determine the organisational and operating methods more specifically in accordance with current law and these articles of association.

Article 27

Meetings of the Board of Directors

1. The Board of Directors is convened at least every two months and in any case in all situations where the Chairman deems it necessary.
2. Additionally, the Board meets if a reasoned request is presented in writing to the Chairman of the Board of Directors by at least one third of the directors; in this case the meeting must be held within fifteen days of the request, unless the nature of the matters to be discussed requires more time.
3. Meetings are called by the Chairman or whoever deputises for him, by sending a notice by any suitable means to the directors and statutory auditors, at least five days before the date set for the meeting, to each one's address, except in cases of urgency when the meeting can be called with just twenty-four hours' notice, or in the shortest time possible given the urgency of the circumstances.
4. In addition to calling Board meetings, the Chairman also sets the agenda and coordinates proceedings, ensuring that adequate information about items on the agenda is provided to all the participants, bearing in mind the urgency.
5. If appointed, the General Manager or, if he is absent or not available, whoever replaces him in accordance with article 46, takes part in meetings of the Board of Directors.
6. Meetings of the Board of Directors are chaired by the Chairman or by the person deputising for him, as per article 26.
7. If expressly provided for in the notice of call, the meetings may also be held by teleconference, video conference or by similar electronic means, as long as it is possible to identify participants with certainty, they can attend the meeting and view, receive or transmit documents and the methods of conducting the meeting do not conflict with the requirements for correct and complete minutes. If any of these methods are used, it has to be mentioned in the minutes. In this case, the meetings are understood to be held in the place where the Chairman and the Secretary are present.
8. For Board meetings to be valid, an absolute majority of Board members must be present.

Article 28

Resolutions of the Board of Directors

1. Board resolutions are voted on openly and passed by an absolute majority of those present; in the event of a tie, the Chairman has a casting vote.

2. For the appointment of the Chairman or of the Deputy Chairman or Chairmen, of the Managing Director and of the director mentioned in article 26, and for their revocation from these functions, at least two thirds of the directors present at the meeting called to pass these resolutions have to vote in favour.

Article 29

Directors' interests

1. Any director who has an interest, on his own account or on behalf of third parties, in a specific transaction of the Company submitted to the attention of the Board of Directors, must promptly notify the Board and the Board of Statutory Auditors, specifying the nature, terms, origin and scope and, if there is a conflict of interest, must abstain when it comes to voting on the matter.
2. If it is the Managing Director who has an interest, he must also refrain from carrying out the transaction, asking for it to be carried out by the Board on a collegiate basis.
3. The Board of Directors' resolution in favour of the transaction must be adequately motivated with regard to the reasons and convenience for the Company.
4. The other obligations envisaged by the current law on conflicts of interest remain valid.

Article 30

1. The remuneration of the Board of Directors is set annually by the General Meeting.

In any case, the consultative, investigative and proposal powers reserved by current law for the Board Committees remain, as does the right of individual directors to make proposals.

THIRD SECTION

Board of Statutory Auditors and independent audit for legal purposes

Article 38

Composition - Duration - Non-eligibility

1. The Board of Statutory Auditors consists of three serving members and two alternate members and is elected by the Ordinary General Meeting which also appoints its Chairman.

2. The Statutory Auditors remain in office for three years and their mandate expires on the date of the Meeting called to approve the financial statements for the third year of their term of office; they can be re-elected.
3. The Board of Statutory Auditors can only be removed by the General Meeting for a justified cause. The decision to remove them must be approved by a court of law, having heard the interested party.
4. The members of the Board of Statutory Auditors must be suitable for carrying out their duties, in accordance with current law and these articles of association. In particular, they must satisfy the requirements of professionalism and integrity and comply with the criteria of competence, honesty and dedication of time, while complying with the specific limits on the accumulation of offices established by the law for holding office as a statutory auditor of a bank issuing shares that are listed on regulated markets.
5. In any case, statutory auditors cannot hold office in corporate bodies other than in a supervisory or control function at other Group companies, nor in companies where the Bank holds a strategic investment, even if held indirectly. Without prejudice to compliance with the limits and prohibitions laid down by current law, those who are directors or statutory auditors of other banks cannot hold the office of statutory auditor.
6. The composition of the Board of Statutory Auditors must ensure gender balance in accordance with current law.

Article 39

Presentation of lists of candidates

1. The members of the Board of Statutory Auditors are elected on the basis of lists presented by the members on which the candidates are progressively numbered and listed in that order.
2. Each list is made up of two sections: one for candidates for the office of standing auditor, the other for candidates for the office of alternate auditor. Each list indicates up to three candidates for standing auditor and up to two candidates for alternate auditor.
3. The lists must be filed at head office by the deadlines established by law.
4. Each list containing not less than three candidates for standing auditors must ensure gender balance in its composition, in accordance with the principles established by current legislative and regulatory provisions.
5. Each candidate can only appear on one list, under penalty of ineligibility.
6. Shareholders who alone or jointly represent at least 1% of the share capital may submit a list, unless current legal or regulatory provisions

establish a lower percentage, to be indicated in the notice calling the General Meeting.

7. In the event that on the deadline envisaged by current law only one list has been filed, or only lists presented by shareholders who are connected to one another, the Company shall promptly announce this in the manner provided for under current law; in this case, lists may be presented up to the third day following the deadline provided for under current law and the threshold for submission envisaged in paragraph 6 is reduced by half.
8. Each shareholder can participate in the presentation of a list by signing it at the bottom. A shareholder may not submit more than one list, not even through a third party or trust company. The shareholders belonging to the same group - i.e. the parent entity, its subsidiaries and companies subject to common control - and the shareholders who are party to a shareholders' agreement pursuant to article 122 of Legislative Decree no. 58/1998 involving the issuer's shares, cannot present more than one list, not even through a third party or a trust company. In the event of non-compliance, the signing is not counted for any list.
9. The lists must be filed at the registered office, also by means of remote communication, according to the methods explained in the notice of call that make it possible to identify the subjects who are doing the filing, within the twenty-fifth day prior to the date set for the General Meeting, or by any different deadline provided for by current law.
10. The lists must be accompanied by information relating to the identity of the shareholders who presented them, indicating the number of shares and the corresponding percentage held by them and, within the terms established by current law, by a communication showing the ownership of the shareholding, as well as any other information required by current law. Shareholders who present a list and who are different from shareholders who hold a controlling or relative majority shareholding must also submit a declaration certifying that they do not have any connections with such shareholders that are considered "relevant" under current law.
11. The ownership of the number of shares needed to present lists is determined with regard to the shares that are registered in the name of the entitled person, or of the group of entitled persons they present the list, on the day the lists are filed at the registered office. To prove ownership of the number of shares that is suitable for the presentation of lists, the entitled parties must also file, together with the list, the specific communication issued by an intermediary authorised in accordance with the law certifying ownership of the number of shares in question. The communication required in order to prove ownership of the shares can also be produced after filing the list, providing it is at least twenty-one days before the date of the General Meeting and in the manner required by current law.

12. Together with each list, exhaustive information on the personal and professional characteristics of the candidates and the list of offices held in other companies has to be filed at the registered office, along with the declarations by which the candidates accept their candidature and, under their own responsibility, declare themselves suitable for the office, certifying, in particular, that there are no reasons for ineligibility and incompatibility and that they meet the requirements of current law and these article of association to hold office as a statutory auditor.
13. Any list that does not comply with these instructions is considered as though it had not been presented. However, any irregularities in the lists that concern individual candidates do not automatically lead to the exclusion of the entire list, but only of the candidates to whom the irregularities refer.

Article 40

Election of Statutory Auditors

1. A shareholder cannot vote for more than one list, not even through a third party or a trust company. The shareholders belonging to the same group - i.e. the parent entity, its subsidiaries and companies subject to common control - and the shareholders who are party to a shareholders' agreement pursuant to article 122 of Legislative Decree no. 58/1998 involving the issuer's shares, cannot vote for more than one list, not even through a third party or a trust company.
2. The procedure for the election of the Board of Statutory Auditors is explained below:
 - a) two serving auditors and one alternate auditor are taken from the list that obtained the highest number of votes, in the order that they were listed.
 - b) from the list that obtained the second highest number of votes and that has not been presented or voted by shareholders who, according to current law, are connected with the shareholders who presented or voted the list with the highest number of votes, one standing auditor and one alternate auditor are taken, in the progressive order in which the candidates are listed in the section of the list. The serving auditor chosen from this list is appointed Chairman of the Board of Statutory Auditors.
3. If it is not possible to complete the composition of the Board of Statutory Auditors due to insufficient candidates on the list that obtained the highest number of votes, this is done by taking them from the list that obtained the second highest number of votes, in the progressive order in which any candidates not yet elected are listed, making it possible to comply with current regulations on the subject of gender balance.

4. If two or more lists among those from which the candidates are to be drawn have obtained the same number of votes, they are subjected to a second ballot until the number of votes is no longer the same.
5. If only one list has been presented, all the standing and alternate auditors will be taken from it, subject to compliance with current regulations on the subject of gender balance. In which case, the Chairmanship of the Board of Statutory Auditors goes to the candidate listed first on that list.
6. In the event that the composition of the Board of Statutory Auditors resulting from the vote does not comply with the principle of gender balance, the auditor elected on the list that obtained the highest number of votes and with a higher progressive number is replaced by the next candidate on the same list belonging to the less represented gender. If this does not identify suitable substitutes, the auditor appointed from the list that obtained the second highest number of votes gets replaced. If this still does not identify suitable substitutes, or if the mechanism cannot be applied, the General Meeting resolves there and then by a relative majority between individual candidates belonging to the less represented gender, on the proposal of those present with the right to vote, making replacements in the order indicated above.
7. If no list is validly presented, the election is carried out by relative majority in the context of the candidates presented at the General Meeting together with the filing of the required documentation, without prejudice to compliance with the current law on the subject of gender balance.

Article 41

Replacement of Statutory Auditors

1. If one or more statutory auditors are no longer available, the alternates from the same list will take over, according to the progressive order in which they were listed, without prejudice to compliance with the current law on the subject of gender balance.
2. They remain in office until the next General Meeting, which has to provide for the election of the statutory auditors needed to complete the Board.
3. In the case referred to in the previous paragraph, the functions of the chairman who is no longer available are exercised, up to the next General Meeting, by a statutory auditor taken from the same list to which the chairman used to belong, in the progressive order of listing of the same or, failing that, by the first alternate auditor who took over, elected from the same list.
4. If it is not possible to act in accordance with the preceding paragraphs, the Bank will proceed according to the provisions of law.
5. The General Meeting replaces statutory auditors as follows:

- a) if it is necessary to replace auditors drawn from the only list presented or, in the case of more than one list, taken from the list that obtained the highest number of votes, or in any case elected in accordance with article 40, paragraph 3, or by a relative majority, the election of a new auditor or auditors, with the possible appointment of the Chairman of the Board, is by a relative majority vote for each candidate, without any list obligation;
 - b) if it is necessary to replace the auditor taken from another list pursuant to article 40, paragraph 2b), the election takes place by relative majority vote among the candidates indicated on the same list as the auditor to be replaced or, alternatively, among the candidates on any other minority lists, again by relative majority, but without taking into account the vote of the shareholders who presented the majority list at the last election of the Board of Statutory Auditors or who, according to the communications made pursuant to current regulations, hold, directly or indirectly, a relative majority of the votes that can be exercised at the General Meeting and of the votes of the shareholders connected to them, as defined by current legislation.
6. In any case, gender balance in the composition of the Board of Statutory Auditors has to be ensured in accordance with the principles laid down by current law.
7. At least fifteen days before the date set for the General Meeting, candidates must file at the registered office: exhaustive information on their personal and professional characteristics and the list of offices held in other companies; that they accept their candidature and, if chosen, their appointment as Chairman; a declaration of suitability to perform the office with an attestation, in particular, that there are no reasons of ineligibility and incompatibility and that they meet the requirements to hold office as a statutory auditor.

 4. The Board of Statutory Auditors informs the competent Supervisory Authorities without delay of all deeds or facts of which it becomes aware in the exercise of its duties, which may constitute irregularities in the management of the bank or a violation of the rules, with particular regard to the regulations governing banking and the activity of companies with shares listed on regulated markets.
